Professional Summary

Business Intelligence Analyst skilled in SQL, Power BI, Python, and Data Visualization. Adept at transforming complex data into actionable insights that drive strategic decision-making. Developed 5+ dashboards, automated 30% of reporting, and enhanced data accuracy by 25% through SQL optimization and ETL workflows.

EDUCATION

Bachelor of Science in Computer Science
Karakoram International University, Gilgit | Sep 2021 – Sep 2024

SKILLS

1. **Data Analysis & Business Intelligence: Power BI, Tableau, SQL, Excel**
2. **Programming & Data Manipulation: Python (Pandas, NumPy), SQL, DAX**
3. **Database Management: Microsoft SQL Server, MySQL, PostgreSQL**
4. **Data Visualization & Reporting: Power BI, Matplotlib, Seaborn**
5. **Data Cleaning & ETL: Python (Pandas), SQL Queries, Power Query**

EXPERIENCE

Business Intelligence Analyst (Intern)

Precise Tech | Remote | Sep 2024 – Jan 2025

- **Examined 100K+ data points, uncovering key trends that led to 20% improved decision-making.**
- **Optimized data pipelines, increasing processing speed by 35%.**
- **Built 5+ interactive Power BI dashboards, enhancing KPI tracking across departments.**
- **Automated reporting via SQL and Python, reducing manual work by 30%.**
- **Presented findings to stakeholders, influencing strategic planning efforts.**

Frontend Developer (Freelance)

Grey Matter Ventures | Gilgit, Pakistan | Sep 2021 – Jan 2025

- **Developed 10+ responsive web applications, optimizing UI performance and increasing user engagement by 25%.**
- **Applied Agile methodologies to streamline development, reducing project timelines by 15%.**
- **Managed GitHub version control, ensuring smooth collaboration and code management.**

PROJECTS

Sales Performance Dashboard (Power BI & SQL)
- Designed a Power BI dashboard tracking $500K+ in sales data across 5 regions.
- Cleaned and transformed raw SQL data, improving accuracy by 20%.
- Built DAX measures to analyze profit margins, revenue growth, and customer behavior.

Certifications

1. **Business Intelligence Essentials – Coursera (Issued: Feb 2025)**
2. **SQL for Data Science – Coursera (In Progress)**

Extracurricular & Leadership

- **Led** climate change awareness campaigns, promoting **sustainability and conservation**.
- **Mentored** junior developers, sharing insights on **data analytics and Power BI**.
- **Active** in scouting and community volunteering, supporting **local education initiatives**.
- **Authored** blog posts on **BI trends, SQL best practices, and Python automation**.
